## INFORMATION REPORT INFORMATION REPORT

## CENTRAL INTELLIGENCE AGENCY

This material contains information affecting the National Defense of the United States within the meaning of the Espionage Laws. Title 18, U.S.C. Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited by law.

SUBJECT  Military Production at the State Watch Factory in Swiebodzice and the Optical NO. OF PAGES 1 Factory in Jelenia Gora  REQUIREMENT NO. RD  REFERENCES  This is UNEVALUATED Information  SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.  1. As of April 1955 watches for general use were not being manufactured at the state watch factory in Swiebodzice (Freiburg). Instead the factory was producing special chronometers for the navy and air force and detonator parts for artillery projectiles and aerial bombs.  2. The factory, which was last enlarged in 1954, is under the supervision of Soviet and Polish officers and the entire production is allocated to defense. There are between 600 and 700 workers employed at the factory; the work is carried on in two shifts.  3. The factory cooperates closely with the precision instruments factory (Fabryka Wyrobow Frecyzyjnych) in Warsaw.  4. Formerly, the optical factory in Jelenia Gora (Hirschberg) made large lenses in cooperation with Czech optical companies. During 1953 the factory was snlarged and was equipped with new East German machines from the Zeiss Company in Jena.  5. During and since 1954, the entire production of the factory has been allocated to the army, navy, air corps, and, in addition, considerable exports have been made to China.  6. Imports of optical instruments (or lenses) to Poland								C-R-E	⊱T
